

SILVER MEN KEEP THE UPPER HAND

Credentia Committee Favors Them Strongly.

TWO-THIRDS MAJORITY CONFIDENTLY PROMISED.

Gold Men From Nebraska and Michigan Turned Out Without Ceremony—Altgeld Makes a Short Speech and Is Received With Cheers—Pleas Made by Sound Money Men For Consideration.

Chicago, July 8.—The convention crowd was slow in gathering this morning. At 10:30 only a third of the delegates were in their seats and it was 10:51 when the convention was called to order. So much annoyance was caused yesterday by crowding about the press seats and the speakers platform that the sergeants-at-arms were ordered to allow nobody on the floor but the delegates.

At 11:06 a band marching club entered. The crowd cheered vigorously. Pending the presentation of reports Gov. Hogg, of Texas, was requested to address the convention. He began by advocating friendliness and good spirit among the delegates—in convention and hereafter. Success in November was certain, he said, if the democratic party would work harmoniously together. He denounced the republicans platform as a mass of glittering generalities to deceive the public. Protection, he declared, was only in the interest of the wealthy and was against the farmer and the workman.

Hogg read the plank in the republican platform of 1892 at Minneapolis, favoring bi-metalism, and said if it meant anything it was gold and silver on equal terms. He finished speaking amid confusion, in which cries for Hill, Altgeld and Blackburn were heard.

W. J. Bryan was found to be absent. Governor Altgeld was asked to address the convention. Cheers and confusion followed.

Overmeyer, of Kansas, took the floor at 12:15. He said the seat of empire was yesterday transferred from the Atlantic to the great Mississippi Valley. When he finished, it was announced that the credential committee was not yet ready and part of the time was filled in with music. A minority report of the committee is being prepared by some of credential committee protesting against unseating the Michigan and Nebraska gold men.

There was a clamor for Altgeld when the band stopped playing. The Illinois governor left his place on the floor and walked toward the desk, receiving a tremendous welcome.

"I did not come to make speeches," he said, "but help formulate the platform."

Nearly everything was mortgaged, he said, from farms to the sewing machine of seamstress and all in the interest of the English money lender. Relief was expected from the action of this convention. Altgeld's point that the gold standard had lowered the price of farm products, while the farmer had to pay more for what he had to buy was loudly applauded.

He referred to the gold democrats as wanting to put halters on Americans in favor of the English money lender. "Will they be allowed to do it?" he asked.

There were cries of "no, no," over the convention.

When Altgeld finished cries for Tillman were heard but he did not respond.

The committee was not yet ready at 12:45 and George Frederick Williams, of Massachusetts, was requested to address the convention. Williams said: "This convention is in no wise sectional. New England is represented and has as much at stake as the west and south and speaks for five million spindles now silent."

At 1:04 the report of the committee on credentials was read. It barred out the gold delegates from Michigan and Nebraska. The committee asked for further time to consider the individual credentials of the Michigan delegates but asked that the Bryan delegates from Nebraska be seated.

The credential committee report as to seating Bryan delegates from Nebraska was declared carried amid much confusion. The report of the committee was accepted, and the committee returned to consider the Michigan case.

Bryan delegates took their seats amid cheers.

At 1:37 the convention adjourned till 5 o'clock.

It is announced that Tennessee has decided to vote for Bland, twenty-four votes.

WHITE CHOSEN TO PRESIDE.

California Man Fixed Upon For Permanent Chairman of the Convention.

Chicago, July 8.—Senator Stephen M. White of California was chosen as permanent chairman of the democratic national convention last night by the committee on permanent organization. In the selection of Mr. White the original plans of the silver men were

changed. Senator Harris was to have been the permanent chairman, but Mr. White was named in order to avoid the criticism started by Senator David B. Hill that the south was ruling the convention.

The present indications are that the convention will last at least four days. Some say it will be late Saturday night before a nomination is made for the presidency.

Last night after the convention adjourned the silver men were confident and full of swagger. They boasted that they were going to run the convention from now on. They even insisted that they would fight out the nominations without paying any attention to the gold men, only being careful that at no time would they give the gold men a change to control the naming of a president.

At the beginning of today's session of the convention when the report of the committee on credentials is presented, another fight between the gold and silver men is likely to be precipitated. Yesterday's action of the silver men in the convention was taken by the politicians as an indication of the fate of the gold delegates whose seats are contested. It was said that the Nebraska and Michigan delegations would be thrown out and the silver contestants stated, and that the other votes necessary to make up a two-thirds of the convention would be secured by giving the territories a representation of six delegates each.

The gold men are going to make another stand if it is attempted to throw out the Michigan and Nebraska delegations, but it is believed that the fight will not be as prolonged as that over the temporary chairmanship. The fact that the silver men turned a deaf ear to the pleadings for Hill is taken as an indication of what will happen to the contested gold delegates.

Last night two reports on rules were prepared. One recommended the rules of 1892. This report is to be used in case there is a certain two-thirds majority in the convention. The other report recommends the abrogation of the two-thirds rule. When the balloting for a nominee begins, if by any accident the silver men lose their two-third majority, the committee will present this second report.

The Bland forces will fight for this report, while the minor forces, supported by the gold delegates, will probably fight for its preservation. The gold men said last night that they would not fight for the two-thirds rule in the interest of any presidential candidate, but simply to be consistent with the course they adopted in regard to party precedent while the Hill-Daniel contest was under way. The Bland men believe that with the two-thirds rule abolished they would be able to accomplish Mr. Bland's nomination. They will insist, however, upon the unit rule being kept in the rules.

The gold men are expected to make a formal protest against the adoption of the silver plank, and thus delay matters today so that the balloting for nominations will not be begun until late Thursday.

Bland still maintains his lead in the fight for the nomination. Though he is not acquiring any large addition to his support, the substantial way in which he is holding his delegates has made his managers confident that he will eventually be nominated by the convention.

It is understood that the anti-silver leaders, after their several conferences, have decided to allow the full responsibility of the silver convention, the silver platform and the silver candidate to rest on the silver men. In order to do this they are about decided that they will take no part in the nomination of the silver candidate, but will give a prolonged, though hopeless, support to some gold candidate. Gov. Pattison seems uppermost in the minds of the leaders, and at last night's caucus he was discussed as being the most available man in the field.

The remarkable absence of any indications of a combination between the minor candidates is causing a great deal of comment among the silver leaders, as well as the gold men. The fact that there seems no concerted effort to defeat the Missouri man is said to be due to the solid manner in which his support is clinging together. Bland's greatest danger is now said to lie in the Teller activity. Senator Jones, the spokesman of the silver forces, is said to be at heart a Teller man, although his state is instructed for Bland. This is said to be the greatest danger in which Bland now stands.

It has been decided by Senators Dubois and Pettigrew and Congressmen Towne and Hartman that Mr. Teller's name will not be placed before the convention until it has been pretty well demonstrated that the silver forces cannot agree on an out-and-out silver democrat.

Gov. Claude Matthews, John R. McLean and Senator Blackburn are still waiting. All hope for the deadlock which will make it necessary for Boies and Bland men to drop their candidates and pick up another man in order to make a nomination, while there is a great deal of "dark horse" talk. Both the Bland men and the Boies men seem willing that the convention should take its leisure in settling matters. This, too, is taken as an indication of the confidence of the silver leaders to hold anything against the gold men.

Camp Lucius Fairchild, July 7.—The

The second battalion had one bat-

Colonel Buck is acting as instructor

Chaplain Moran went fishing today.
Does twenty-two fish sound like a fish
story?

Cold last night. Sergeant Zander
froze one of his ears.

One private asked leave of his
captain today to return home at once,
as his wife had just died (her hair.)

There was considerable fun today
at the expense of some of the recruits.
One was sent the rounds for tent pol-
ish, another to obtain the counter-
sign, while the third was earnestly
seeking information as to where the
guard line was to be this afternoon.

To be a friend to Uncle Sam
through the medium of a charming
young lady correspondent must be
very pleasant, judging by the smiles
on the faces of some of the men who
receive a letter each day—Sergeant
Blood for instance. Cards may be
out soon as Sergeant Zander's letter
was strictly business, so he says.

The health of the camp so far is un-
usually good. But little sickness is
reported, and that outside of Com-
pany A.

The band gave a concert tonight,
which was very good and enjoyed by
all. Their music without exception
is up to date. Kneff and Mahaney
are valuable assistants, and don't
make a word of complaint when at
mess they may be obliged to assist
each other in cutting their beef steak.

The second battalion shoots on the
range tomorrow, and about a score
of men of Co. A. are
very anxious to qualify
so they may be put on the company
team. The thirty-six highest in the
preliminary practice will be allowed
to shoot the remainder of the week.

still retains that fourteen-inch smile.

JANESVILLE MILK IS PURE.

Inspected By the Dairy and Food Com-
missioner Shows This.

Local dealers may now rest at
ease. The report of the recent test
by Assistant Dairy and Food Com-
missioner W. Chadwick is a favor-
able one. Chadwick was in the
city today and told a Gazette man
that the sample milk recently taken
from the local agencies were "fair
grade," in fact that he was not the least
signs of adulteration in any of the
samples.

NEW LINE TO BE PULLED THROUGH

Metallic Circuit Between Janesville and
Madison Will Be Run Soon.

Work on the Janesville-Madison me-
talic circuit has been running by the
Wisconsin Telephone Company. The
right of way is now being secured
through Edgerton, and work has been
received from State Superintendent of
Construction T. J. Gallagher, and he
expects to have the line completed into
Janesville by the latter part of Au-
gust.

A. C. KENT PAVES COURT STREET

Much Needed Improvement Is Being Made
But the Job Isn't Complete.

A. C. Kent has commenced the
good work of paving that portion of
Court street between Main and Park
streets, and the work will cost him
about \$200. It had been hoped that
the entire width of the street could be
paved, but Court Street church trustees
did not feel justified in spending such
an amount of money.

more money. Lowell Hardware Co.

SMOKE MADE HER MUSICAL.

Mrs. "Hoot" Dulin Says Firecrackers
Caused Her To Sing.

Mrs. "Hoot" Dulin told Judge Phelps
all about it.

"We were just making a friendly
call," she said. "I'll never go to visit
my relatives again on the Fourth of
July. I hadn't been drinking, either.
The firecrackers smoke got in my nose
and made me want to sing."

Judge Phelps paused reflectively.

"Five days," Mrs. Dulin, he said
finally, and Clerk Williams got a com-
mitment blank and did the rest.

JANESVILLE SENT DOWN 200.

Lower City People Did Their Part to
Swell the Chicago Crowd.

Janesville is represented in Chicago
this week as she has never been before,
since the World's Fair year. Local
railroad ticket agents, after a careful
estimate, place the number of people
who have gone down this week at two
hundred. Among those who left this
morning on the vestibule were E. J.
Smith, J. F. Sweeney, F. Randall,
Thomas Clark, V. P. Richardson, W. H.
Greenman, George Simpson, E. W.
Lowell, Silas Hayner and W. R. Brown.

BOY'S EYE WAS FULL OF MUD

Little Son of Mr. and Mrs. Blanchard
Painfully Hurt.

The little son of Mr. and Mrs. C.
A. Blanchard, of South Main street,
is suffering much from the effects
of an accident. He and a little play-
mate were tossing mud at one
another and the little Blanchard boy
received a share in his eye. Inflama-
tion set in and Dr. Thorne who was
called labored with the boy for some
time before the pain could be re-
lieved.

LYCEUM PARTY A SUCCESS

Young People Enjoyed Their Evening
Up the River Thoroughly.

Members and friends of the Rusk
Lyceum enjoyed the party last even-
ing—every minute of it. They en-
joyed the ride, they rhapsodized over
the dancing floor, they went into
ecstasies over the music.

They danced until midnight
and got home about 1 o'clock thor-
oughly delighted with their evening.

FORTY-SEVEN BARS

WILL BE LICENSED

SPECIAL MEETING OF THE
COMMON COUNCIL.

An Increase of One in the Number of
Bower City Saloons—Nine Permits
Issued to Druggists—Alderman
Burnham Votes Against the
Report.

There will be even less thirst in
Janesville this year than last if the
number of saloon licenses indicate
anything. Forty-seven were issued,
and there were nine permits for drug-
gists. When the question of approv-
ing the license committee report came
up Alderman Burnham said he was
perfectly willing to sit still and not
vote on the committee's report. He
was not there to fight on the liquor
question, but as a matter of principle
he should have to vote on all the ap-
plications.

Alderman Kothman moved that Al-
derman Burnham be excused from vot-
ing.

Alderman McLean said that he
could not be excused from voting.

Mayor Baines instructed the clerk
to call the roll and Alderman Burnham
voted no and the balance of the council
aye and the report was adopted.

SOMETHING TO EXPLAIN.

One thing the democratic convention should not neglect, and that is to explain the official statement for the last fiscal year. On its face it appears to be a distinct and conclusive proof of the evil effects of democratic rule. Ours is the richest country in the world, at peace with all nations, and exempt from causes of extraordinary outlay; and yet by reason of the incompetency of the party in power, it has been placed in the humiliating condition of a borrower of money to pay ordinary expenses. The figures show that the revenues for the year were \$325,026,340, and the expenditures were \$351,316,680, the deficit being \$26,290,340. Thus we have the beautiful spectacle of a poverty-stricken treasury, with all of its attendant advantages in the form of impaired credit, increased public indebtedness, and general demoralization of politics. The democratic party can point to nothing better than this as the result of its management of national affairs. It has not in any sense demonstrated the capacity to conduct the public

business in a safe, prudent and satisfactory way. On the contrary, it has made a miserable botch of the whole thing, and the nation has been saved from absolute bankruptcy only by a resort to the bond-selling expedient that belongs to a time of war.

"It must be apparent to all, regardless of past party ties or affiliations," says Mr. McKinley, "that it is our paramount duty to provide adequate revenue for the expenditures of the government." There can be no substantial prosperity so long as the deficits continue and the nation is forced to negotiate periodical loans for the replenishment of an empty treasury. The money question is one of vital importance, but it is not the only one that demands serious consideration, and it should not be allowed to obscure the fact that the democratic tariff policy has proved to be a stupendous misfortune to the country. It is easy to understand that the democrats are anxious to keep this evidence of their costly folly in the background, and to divert attention to other things, but that should not be permitted to escape responsibility in that way. They have made a record by which the nation has a right to judge them, and by which it will judge them.

WHO WOULD SUFFER?

Five very large classes of the American people to whom the adoption of free silver coinage at 16 to 1 would mean direct and open robbery are listed by an exchange and the list gives much food for reflection. The five classes are:

1. Every person who has shares in any building and loan association.
2. Every depositor in a savings bank.
3. Every person who has his life insured to provide for his family.
4. Every man who has his property insured against fire.
5. Every old soldier or soldier's widow who receive a pension.

Free silver would mean a shrinkage of 50 per cent. in the prospective income of all these people. Can any party afford to endorse such a thing at the call of the western mine owners?

The First district convention will be held August 4, the day before the republican state convention. An example of harmony will be set that the state convention might well pattern after.

The Ashland News (dem.) says there is no truth in the report that Col. Knight and Mayor Bardon will bolt the democratic ticket and vote for McKinley.

Wisconsin delegates in Chicago have been infected with Tellerism. They will recover with startling rapidity when they hear from the folks they left behind.

If these gubernatorial candidates keep up their pace as letter writers there will be no paper left for ballots in November.

The Delavan News is in favor of ex-Congressman Caswell for governor.

DELICATE SPECIES OF SPONGE.

Some of the Fungi Are of Rare Beauty and Fantastic Shapes.

(From the St. Louis Republic.)

Sponges of the common sort are so well known that people long since ceased to admire their curious and interesting structure. There are some rare species of sponges, however, such as the "glass," "lace" and "tapestry" sponges, that are so exceedingly beautiful that the presence of such a specimen never fails to excite expressions of admiration. The delicate "Venus flower basket" belongs to the family of glass sponges, and is rightly regarded as a wonder by all who have had the privilege of owning or viewing it. This curious "flower basket" is found in the deep sea near the Philippine islands and in no other place in the world in numbers sufficient to make fishing for them a profitable industry. This species of sponge looks like delicate webs of glass woven into a curious, beautiful and intricate pattern, some specimens being of such exquisite loveliness that one can scarcely believe that it is simply the skeleton of a variety of sponge. This sponge is composed of an immense aggregation of minute "spicules," running lengthwise from end to end, with numerous cross bands at right angles. These bands and cross bands are set with numerous five, six, nine and twelve pointed spicules, some of them edged with dozens of holes, which can only be seen with a microscope, because they are so exceedingly fine.

Read Helen's Letter.
Helen's letter is like a book—
Charming in all its pages,
Helen's face is like a book;
What's the story I forsook?
When on Helen's face I look?
When her smile engages.There I read a old romance;
Here I see a living,
There I read a old romance.
But in Helen's sweetest glance,
Far a livelier tale enchants,
Wild excitement giving.What is printer's ink to me?
Commas, dots and dashes!
What is printer's ink to me
If with Helen I may,
Exclamation points I see
Underneath her laugh!

NOT CHOLERA GERMS.

A Hawaiian Reassured as to Some Roots He Saw in His Poi.

An incident is told by ladies who deal out rations to needy natives at the central depot of the Hawaiian Relief Society about an aged native and his allowance of poi, says the Pacific Commercial Advertiser.

"Poi for six," cried out one of the ladies as she handed a rusty old bucket to one of the native attendants.

"Poi for six," cried the attendant as he returned the bucket filled with the substance.

The native received his allowance and started to walk away, when something in the bucket seemed to have the effect of hypnotizing him. His eyes started from their sockets and the cold beads of perspiration on his forehead indicated fear of some kind.

Returning the bucket to the lady at the window, he pointed to some yellow specks in the poi, well distributed throughout the whole mass. "He kumu kolera kela" (those are cholera germs), said the native, who had evidently not been educated in the science of bacteriology.

The lady tried to explain that the yellow specks were the roots of the taro, which sometimes gets into the poi when the tubers are too closely scraped. This was beyond the comprehension of the man, and the lady was about to give up when a young native stepped forth and, tapping his fellow-countryman on the shoulder, launched forth in the following scientific explanation:

"All the poi in this place has been cooked. If those are germs, they are dead ones, for the doctors tell us cooking will kill germs. Now, then, you will have no trouble after eating that poi."

"Oh, all right," said the native, and taking the bucket once more from the lady he walked away perfectly satisfied.

A matter of considerable interest, though not generally known, comes up in connection with this story. A great many natives are of the opinion that the germs of cholera can be seen with the naked eye. They catch fish, and if they see nothing suspicious use them as food without further thought about the matter.

Washington's Most Beautiful Woman

In the opinion of a distinguished member of the diplomatic corps, Miss Rachel Cameron, the daughter of Pennsylvania's senator, is the most beautiful young woman in Washington society to-day. Miss Cameron's beauty is not of face and figure alone, but her whole personality is imbued with her inimitable grace and charm, that render her irresistibly beautiful and charming.

Hard on the Men.

One would like to have known the school-girl who, in reply to her brother's jeers and inquiries, "Why girls should be always kissing each other and men not?" said that, of course, it was because the girls had nothing better to kiss and the men had—but perhaps she studied the question too deeply and developed into the fair cynic who, after a season or two of conquests, gave it as her opinion that the men were like colds—very easy to catch and very hard to get rid of.

Near-sighted people almost always have prominent eyes.

THE HORSE A KICKER OF \$3,000 QUALITY

DAMAGE SUIT TURNS ON A HORSE'S TEMPER.

People of Argyle, LaFayette County, Say That the Horse That James Condon of This City Sold to Mrs. Flannigan Was Not Reliable.

A former Janesville horse was the cause of a \$3,000 damage suit at Darlington today, and the case rather hinges on Joseph Heald of this city, who is the main witness. In 1894 James Condon of this city, owned a five year old colt which he turned over to Heald to train. The colt was in Heald's care for several weeks and then was turned over to Condon. Afterwards he was sold to a Mrs. Mary Flannigan, of the town of Argyle.

One day while being driven the horse took fright and ran away, striking a stump in the road, and throwing Mrs. Flannigan out. The fall, she says, injured her to the extent of \$3,000, and she sues the town of Argyle. The case is being tried before Judge Olenenson and Heald is summoned by the town authorities to prove that the horse was a kicker and was more dangerous than any quantity of stumps in the road.

STREET CAR TICKETS GO DOWN IN PRICE

LESS THAN FOUR CENTS A PIECE HEREAFTER.

Superintendent Mark Cummins Has a Plan Which Will Be For the Benefit of Regular Patrons of the Street Railway—Coupons and a Rebate

Patrons of the Janesville Street Railway will soon ride for a fare less than four cents.

This comes through the efforts of Supt. Mark Cummins.

For some time past Mr. Cummins has been urging Owner Blabon to offer greater inducements to patrons.

The plan that has been adopted finally is to sell six tickets for a quarter with an extra coupon in each bunch.

When twenty of these coupons are presented an extra bunch of six tickets is given.

Substantially, this means 126 tickets for \$5 or a shade less than four cents a ride.

Superintendent Cummins said this morning that business was good, but that in the future they intended to hang out inducements to make the people ride even more.

ROWBOAT HIT BY THE COLUMBIA

Collision on the River at Midnight Wrecked a Camping Party.

Capt. Buchholz's steamer, the Columbia, ran down a row boat while returning from the Rusk Lyceum party about midnight. Five young men were in the boat with a camp outfit which they were taking up the river. The collision occurred off the second sand bar just above "Greenland." Capt. Buchholz saw the light on the row boat and whistled several times for them to get out of the way. The fog was so thick however, that he was unable to discern the craft plainly. The light in the row boat kept weaving backward and forward and Capt. Buchholz hauled the shore as closely as he dared. The light disappeared for a moment and then came a yell and the boat met. Three of the occupants of the row boat jumped for the side of the steamer and climbed on board. The other two swam ashore, while the boat, which was stuck about three feet from the stern, filled with water. Andrew Carlson and Gus Hovland, who swam ashore, refused to ride down in the steamer, but Charles Hovland and Edward Terrill came back to town.

GETS HER DIVORCE AND FOUR HOUSES

MRS. MARGARET LAMPHIER'S PETITION IS GRANTED.

George Bennett Puts the Court Costs On Her Husband and Gives Her the Homestead and Three Cottages in Clinton—Cruel Treatment Alleged.

Mrs. Margaret Lamphier gets her divorce and gets considerable property besides.

The case was disposed of in Judge Bennett's court today. Allegations of cruel and inhuman treatment were made and no testimony was submitted in rebuttal. The only contest was on the amount allowed the plaintiff. It was ruled that she should receive what approximated to one-third of the defendant's property. The homestead and three cottages in Clinton were set apart as her share. It was also ordered that the fees of clerk and sheriff be paid by the defendant. Fathers, Jeffris, Fifield & Mount appeared for the plaintiff and E. D. McGowan for the defendant.

TOOK VOWS AT CUPID'S ALTAR

Murry—Holdredge.

Ada Holdredge Ash, whose divorce from Harry Ash was announced in Milwaukee papers recently, was married July 4 to Jules Murry, of Chicago. Mr. Murry was manager of the Calhoun Opera Company when his present wife was the prima donna and the company went to the Pacific coast. He also directed the tour of the Columbia Opera Company, with which she appeared in Janesville on two occasions the past season. He was representative for J. H. Shunk, the well known Chicago manager, and at one time lessee of the Myers Grand Opera House in this city. He has recently obtained a divorce from his wife in Chicago.

Sometimes it seems to weary woman that she must certainly give up. The simplest and easiest work becomes an almost insurmountable task. Nervousness, sleeplessness and pain harass her and life seems hardly worth the living. Dr. Pierce's Favorite Prescription was made for her. Dr. Pierce's Golden Medical Discovery was made for her. The former is for the ill distinctly feminine, the other for her general and successful course of treatment. The "Favorite Prescription" restores healthy, regular action to the organs distinctly feminine. It forces out all impurities, strengthens the tissues, allays inflammation. The "Golden Medical Discovery" promotes appetite, helps digestion, promotes assimilation, fills out the hollows in cheeks and neck with good solid flesh and brings back the gladness of girlhood. With these remedies there is no need of "examinations."

SILK AND LACE.

Beautiful White Petticoats For Thin Gowns—Foulard and Taffeta.

Black and colored silk petticoats, trimmed with lace, are worn as much as ever for general use, but petticoats of fine white muslin, cambric or nainsook, adorned with tucks, embroidery and lace, are revived to accompany thin gowns of wash or other goods. These white petticoats, marvels of delicate work, are also worn with ceremonious costumes.

Foulards are coming to the fore again and are very much worn in Paris by the most fashionable women. Those of a light tint are sprinkled with small "porcelain" designs, palm leaves and dots. White dots on a blue, mauve or violet ground are liked also. The white lace which ornaments the bodies and sleeves of costumes made of these silks gives them elegance in spite of their comparative inexpensiveness.

A great deal of taffeta is seen. It is trimmed more and more with ruffles, plaits and ruffles of tulle, gauze and mousseline de soie. For light wool goods, mohairs, crepe de chine and pique, applications of embroidery, guipure or lace in relief are employed.

Valenciennes lace is universally used this season. For a long time it has been

TAFFETA TOILET.

confined to underwear, but now it decorates skirts, bodices, sleeves, collars, ruffles and even capes and hats. Black valenciennes is a novelty which is most effective on nainsooks and muslins, both black and white and colored. A charming gown of sheer white swiss muslin was trimmed with narrow black insertion and edging, and nothing more dainty could be imagined. Black and white striped and dotted nainsooks are trimmed in the same way, the ruffles being edged with lace and insertion being arranged on the full bodice.

The gown illustrated is of light blue glace taffeta with pompadour flowers. The godet skirt is trimmed with ruffles of white gauze arranged in three horizontal bands. The bodice opens in front over a draped chemisette of white gauze and has bretelles of pink satin forming coques on the shoulders and fastened by ornamental buttons. The sleeves have an arrangement of gauze ruffles on the outside of the puff and a horizontal trimming of the same just below it. The belt of pink satin is finished by coques and a paste button. The ruche is of white gauze.

FASHION'S FANCIES.

Exercise of Individual Taste Permitted. Sleeves, Skirts, Capes and Colors.

Fashion is now making for herself a middle course between the two extremes of tightness and bouffancy. Sleeves and skirts are decidedly moderating in size, but have not yet become mere close cases for the limbs. There is much room for the exercise of individual taste in color, shape and trimming. We are not commanded to wear all brilliant or all dull colors under the penalty of being out of date. Everything considered, this is a very satisfactory season as far as the wardrobe is concerned.

Capes continue to be worn in spite of rumors that they are to be discarded. Their disappearance has been foretold many times, but they are as fashionable today as ever and show no symptoms of declining from favor. They are more and more trimmed—ruffles of gauze, plaits, light ornamentation of all kinds, bows, beaded embroidery and applications of figure. Capes of silk as well as cloth are employed in openwork over a contrasting lining or a lining of the same color, but of different material. There is quite a fancy in combining different goods of the same

SILK COSTUME.

shade, a new cape model being composed of mastic cloth embroidered in openwork over a silk lining of mastic, the trimming being ruffles of mastic gauze.

It is now the thing to have the hosiery and silk petticoat match the gown exactly in color. This is a very extravagant fashion, for it necessitates a separate petticoat for every gown and unlimited supplies of hosiery of all shades.

An illustration is given of a costume of silk having a white gown with eucalyptus green and pink stripes. The godet skirt is plain. A figure bodice of white ribbed tulle opens over a chemisette of white tulle, which is retained at the waist by a narrow belt and pasted to the bodice and falls in folds upon the skirt. The revers of the skirt lie over a large collar of white tulle. The bouffant sleeves, which are very full around the fore arm, are of green silk with white epaulets of white lace. Bows and ruffles of green silk adorn the shoulders.
